Subject: I have a reason to live: How PACE helped Jason

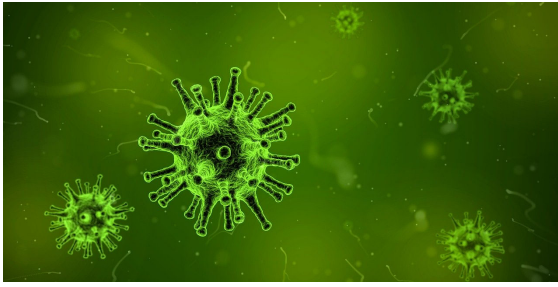

We believe everyone
deserves a second
chance.

Learn from PACE client Jason how he learned to love himself, what services he's enrolled in at PACE, and why his view on life is completely different.

March 2020 Edition

PACE's coronavirus COVID-19 response

We have been closely monitoring the spread of COVID-19 and have already implemented plans designed to protect our guests and staff to help ensure our office remains open for the convenience of our clients and their daily needs. We have enhanced our in-office cleaning and sanitation processes, and continued emphasis on proper hygiene, including more frequent hand washing and the proper use of hand sanitizer. We will remain open for the foreseeable future and will have extra food available for our clients in need.

Postponing our annual Advocacy Breakfast

In response to major events from last week (including the temporary suspension of the NBA season, restrictions on attendees to NCAA tournaments, and federal travel restrictions) due to the coronavirus COVID-19, PACE is postponing our event originally scheduled for April 7 effective immediately. Our goal is for everyone in our community to be safe, and to minimize the impact of this situation. All ticket sales have been refunded and an announcement of a new date in May will be shared soon.

[STAY TUNED](#)

Brain Injury Awareness Month

All March long we are celebrating National Brain Injury Awareness month with our #changeyourmind social media campaign. Many of our clients experience a number of traumatic brain injury (TBI) impairments related to thinking or memory, movement, sensation, or emotional functioning. Help us share awareness that TBIs during incarceration result in mental, social, emotional, and behavioral difficulties.

PACE hosts first mini community health fair

On February 20 we were excited to host our first-ever mini community health fair! Attendees walked away with resources to support their mental, physical, and dental health. Free private HIV testing and training on how to administer "narcan" in an emergency were also provided.

PACE hosts 2nd annual expungement clinic

On February 18 we were pleased to partner with Indiana Legal Services, Inc. to host a criminal record expungement info session. Attendees learned how expungements work and had the opportunity to get questions answered by a legal professional.

We are hiring

We are seeking a diversion specialist! Interested individuals should email their resume and cover letter to pace@paceindy.org. If you meet our qualifications, a member of our team will reach out to you. No phone calls.

[LEARN MORE](#)

We are so excited to share that our amazing volunteer Paula Horvath coordinated a photo shoot at our office recently with the brilliant artist Jedediah Johnson, who

generously shared his time and talent to get some great shots for our 2019 annual report!
